SERIES INFORMATION

SHS and SIS facility "Year of LOS F" indicates the year when a state roadway is expected to reach LOS F if no roadway improvements are completed beyond 2014. This information helps identify future roadway capacity needs and funding implications. Year of LOS F is determined by comparing AADT interpolated between 2014 and 2040 with LOS E service volume thresholds under 2014 conditions.

Notes:
1. The maps are intended for planning purposes only.
2. This data is accurate up to date of production.
3. Map inset framework is kept consistent with other map series. This results in several "empty" insets of each county since year of LOS F analysis covers SHS and SIS only.

Data Source:
1. FDOT Annual LOS reporting, July 2015.
2. Southeast Florida Regional Planning Model 7 - Analyst version, April 2016.
3. Treasure Coast Regional Planning Model 4 - Analyst version, April 2016.
4. Selected PD&E studies as completed for or by FDOT D4 staff, within the last 5 years.
5. Base map is developed and maintained by the FDOT Transportation Statistics (TranStat) Office.
